

ICOM

Alternative Fuel Systems

ICOM DYNAMIC SYSTEMS

DUAL-FUEL NATURAL GAS/DIESEL SYSTEMS

CNG, RNG AND LNG SYSTEMS

POWERED BY ECOMOTIVE SOLUTIONS

APPLICATIONS

ICOM offers the most systems EU certified for a range of diesel engines right up to 2025 model years including Cummins, Paccar, Detroit Diesel, Mercedes, Volvos and many others. Including on-road, off-road, port, generators, mining equipment, marine projects. .

ON SITE TRAINING

ICOM can provide onsite training for you and your team

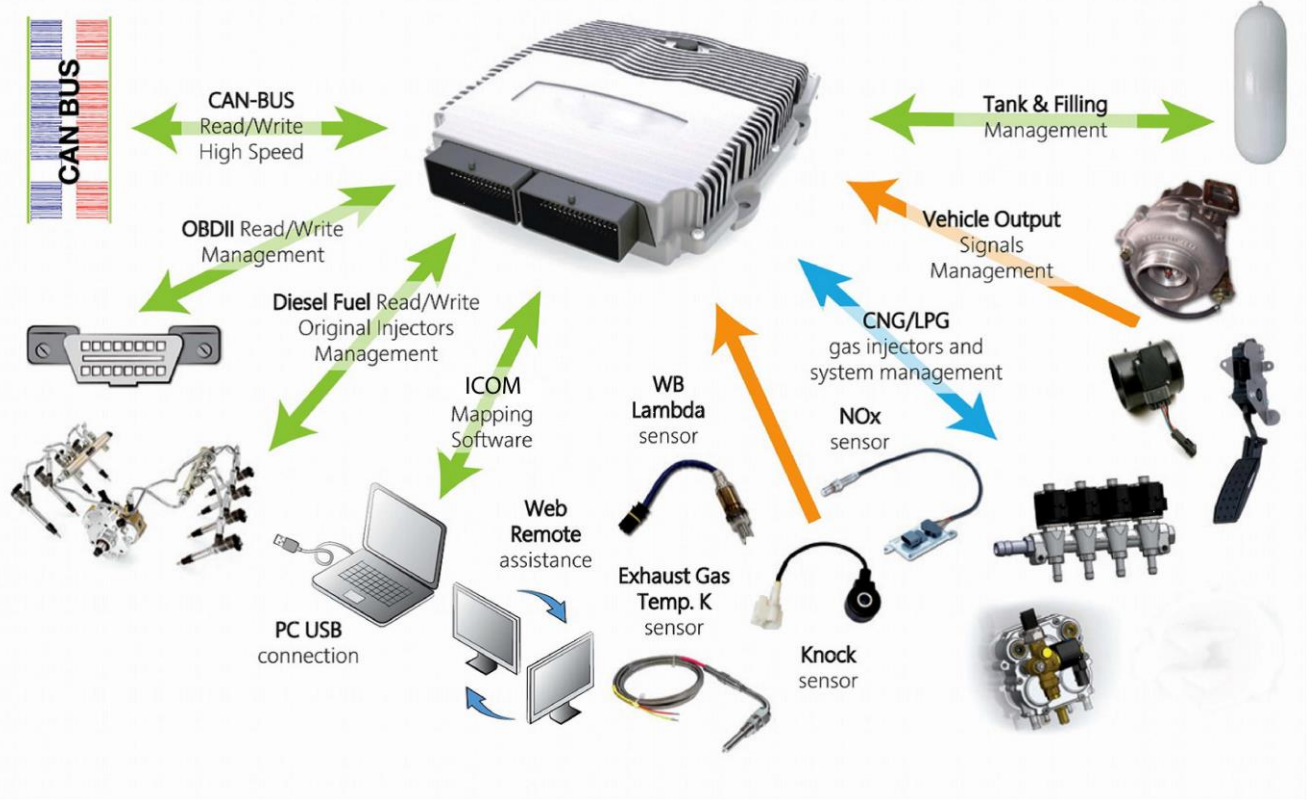

TELEMATICS

At ICOM we work with many telematic company's and can offer your fleet telematic tracking for duel fuel data on cng and diesel

DEALER NETWORK

Over 150 dealers across the U.S., Mexico, Canada and Latin America

**ADVANCED NATURAL GAS SOLUTIONS FOR DIESEL ENGINES
THAT REDUCES FUEL COST AND EMISSIONS**

ICOM DYNAMIC's Dual Fuel System offers many advantages

- **High Displacement of Diesel Fuel with Natural Gas**
- **Reduces emissions (Up to EURO 6 emission standards)**
- **Reduce Frequency of regeneration cycles and much more!!**

With ICOM systems and know how we can tailor a solution for your fleets needs and drive cycles to provide the most optimum displacement of diesel with natural gas.

ICOM has over 15 years of experience in manufacturing alternative fuel systems including CNG, LNG, RNG, LPG and many other fuels.
